

5th March 2019

Dear Parents/Carers

Year 10 Taster Day

This year we are able to offer all Year 10s the opportunity to participate in a Taster Day. This is to be held on Thursday, 4th July 2019. We have been extremely fortunate that JC6, Hinckley and King Edward VI College, Nuneaton have offered our students a Sixth Form Experience. This will be an informative and unique insight into post 16 study and both A Levels and BTEC subjects will be available. This is a great opportunity for the students to see the facilities on offer and in particular to visit specific departments. Further details regarding the institutions are available on their websites.

Plus, we have secured a limited number of places for a School Taster Day at Brooksby Melton College. This day will consist of two practical sessions and in the past beauty therapy, film and TV production, hairdressing, animal care, agriculture, equine studies plus more have been offered. This is a day for students to 'have a go' at some of the activities that the college has to offer.

Open Days/Evenings will be available starting from September/October and by attending such events we find students are more settled in their choice of courses and specific school/college preference.

Please complete the slip below and circle your child's preference by Tuesday, 19th March 2019. For JC6 and King Edward VI, students will be required to find their own way to and from on the day. Transport will be provided to Brooksby Melton although the mini bus will leave school early. Those indicating a preference for Brooksby, please underline your preferred choices on the day. There are two activity choices and they must be at the same campus (either Melton or Brooksby for both activities).

Subjects on offer at both JC6 and King Edward VI, will be available nearer to the date. **All three post 16 option providers will be at our Futures Event on Monday, 11th March.**

Yours sincerely

J LOWRY
Careers Leader
